DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-19, 20-26, 27, 28, 44-48, 49, 50, 54, 55, drawn to **methods** and **computer-readable mediums** having executable instructions for *retrieving metadata for a media file accessible via a media player*, classified in class 710, subclass 5 (Input/Output command process).
 - II. Claims 29-38, 39-43, 51, 52, 53, and 56, drawn to **methods** and **computer-readable mediums** for retrieving an XML document, classified in class 709, subclasses 203 (distributed data processing/client-server).

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as transmitting identification parameters to a structural query language (SQL) server and receiving an XML document from the SQL server. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2182

4. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
